

## **A MOCK FIRE DRILL**

Rotary Public School , Sec-22 , Gurugram conducted a mock fire and evacuation drill on 21<sup>st</sup> Dec-2017 , involving the staff and students to create awareness among the students' community about firefighting technique and the ways to respond swiftly in times of emergency situation.

Prior to the commencement of the exercise

- The students and teachers were divided into various teams including fire alarm, site safety and transportation to carry out the mock drill. The “evacuation “operation began the moments after the fire alarm team alerted the students about “fire” in the school.
- The students were immediately evacuated from their classrooms as per floor chart in specified venues in the school playground.
- They gathered at the assembly area. Different improvised methods were taught to them at the time of emergency situation. It was well executed and self-sufficient mechanism of preparedness at the time of disasters.
