WORKSHOP

Effective Work - Life Skills for Happiness and Success

It was a great opportunity for the staff of Rotary Public School to attend Workshop by Mr. Vijay Rai, President NHRD, MD Asia Pacific and EMEA Markets with Saviour USINC. He worked as President and CEO with PowerCon. On 26th Aug., 2017, a special workshop was held on “Effective Work - Life Skills for Happiness and Success”. In the workshop, he exchanged his views on Leadership and Practice. His mantra of life is “Today is the first day for the rest of my life.” He also emphasized on that it is the ATTITUDE which determines our ALTITUDE.

It was an interactive workshop for the teachers to emphasize that the happiness can be triggered outside of conscious awareness and success is the byproduct of it. He also gave the teachers real life examples that you can't be successful without being happy and fit. It is happiness that determines success.

In view of such a relevant objective, all GPSC schools were invited to participate in this special workshop. It was in a blink of the eye that the time ran and the session was over. All the teachers had a wonderful time and really benefited out of the session. Vote of thanks was rendered by Vice Principal Mrs. Anita Nandal.
